children from intact homes, with the exception of alcohol use. Some have questioned the causal relationship, arguing that there may be a genetic trait common among children from divorced families that increase the risk of delinquency (Guo, Roettger, & Shih, 2006). Recent research, however, failed to support this view. Specifically,

Alcohol and Academics Lack of sleep and alcohol consumption are common occurrences in a college student's life. Many college students are significantly sleep-deprived. The adverse effects of alcohol on sleep magnify this effect. Both of these practices can have negative effects on cognitive abilities, especially when paired together.
