Some situations in which present value measures are used in accounting include: (a) Notes receivable and payable—these involve single sums (the face amounts) and may involve annuities, if there are periodic interest payments. (b) Leases—involve measurement of assets and obligations, which are based on the present value

Intermediate Accounting (2nd Edition) Textbook Solutions ...

known as depreciation accounting, a system of accounting which aims to distribute the cost or other basic value of tangible capital assets, less salvage (if any), over the estimated useful life of the unit (which may be a group of assets) in a systematic and rational manner. It is a process of allocation, not of valuation.
